

HOPKINSVILLE KENTUCKIAN

WEATHER: For Kentucky
Fair and cold Thursday.

HOPKINSVILLE KENTUCKY, THURSDAY, NOVEMBER 16, 1916.

VOL. 37—No. 228

EDITORIAL COMMENT.

Wm. Culver, aged 106, voted for Wilson in Nelson county.

One of the President's most troublesome problems now is to take care of the "lame ducks."

Every time a Democrat eats a California orange this winter, bet you he will smile with pleasure.

Republicans are claiming that one of the Idaho electors is ineligible, being a member of the legislature.

Let us hope that Congressman Jeanette Rankin will not interfere with business in the House by wearing extremely stylish clothes.

With prospects bright for \$8 round for Christian county's 30,000,000 pound tobacco crop, many an automobile mortgage will be paid off.

Some of our Republican sports lost money by betting on the election after it was over. Many Republican victories have been won in the count, but not this time.

Dr. C. H. Todd, who died at Owensboro this week, was a gallant Confederate surgeon and one of Kentucky's leading physicians. He was vice president of the State Medical Society when it met here in 1876 and was later president.

Many world rulers have cabled congratulations to President Wilson, but he is giving Mr. Hughes the place of honor by waiting for his congratulations before giving out any. The Judge is keeping up his reputation of failing to connect.

Mrs. Lucy G. Saylor, of Bloomington, Ill., will be married next week to Dr. Wm. Miller, who has just served 12 years for the murder of her husband. Mrs. Saylor herself served three years and has waited nine years for him to get out.

Washington is said to be much excited over the coming of Miss Jeanette Rankin, Congressman from Montana. She is a Republican, but there are plenty of Democratic bachelors and she may arrange a pair before Congress meets a year hence.

Judge Robt. W. Bingham, of Louisville, and Mrs. Henry M. Flagler, of New York, were married yesterday. The ages of both were given as 47 and the bride's wealth is estimated at \$70,000,000. Judge Bingham has three children.

The railroads in the eastern part of the United States announce their purpose to obey the order of Interstate Commerce Commissioner McChord, that they return immediately to the other roads all freight cars in their possession in excess of 100 per cent of their actual equipment.

Louis Cabrera, chairman of the Mexican joint commission, has balked an agreement on the Mexican question by opposing a plan agreed to by the other five commissioners. It provided for a withdrawal of American troops as soon as Carranza demonstrated his ability to protect the border. Negotiations may come to an end.

BIG MILK SHAKE.

The horses to C. R. Atkins' milk wagon ran away yesterday morning on the Canton pike and destroyed \$20 worth of milk, \$30 worth of bottles and damaged the wagon \$50 worth. Mr. Atkins got another wagon and made his route with only an hour's delay.

Five Cases of Typhoid.

Typhoid has prostrated several members of the family of Mr. W. R. Dudley, near Pembroke. His sister, Miss Rebecca Dudley, and two of his little daughters are ill at his home and Mrs. Lullie Cloud, his mother-in-law, and her daughter, Miss Mary Cloud, who contracted the disease at Mr. Dudley's are ill in this city.

PLAN TO QUIZ CONTRIBUTORS

Senate Leaders Prepare Definite Program to Investigate Use of Money.

PROBE TO BE THOROUGH

Election of New and Watson and Sutherland to Be Given Particular Attention.

Washington, Nov. 15.—Definite plans were laid by administration leaders for having the senate begin an investigation as soon as congress convenes of the use of money in the last presidential campaign.

As outlined by officials the investigation will be very thorough and will include the cross examination of wealthy men supposed to have made campaign contributions as well as of the men in charge of the spending of money raised for the campaign.

Evidence is being gathered upon which to base contests in the election of Harry S. New and James E. Watson as senators from Indiana and Representative Howard Sutherland as senator in West Virginia.

NEW MAYOR PRESIDES

At The Regular Meeting of The Commissioners Tuesday.

The Board of City Commissioners met Tuesday morning with Mayor R. T. Stowe presiding. There was but little business on hand except the hearing of a few complaints from parties whose assessment lists were raised by the assessor. These were heard and the matters left open for investigation. Commissioner Wicks submitted plans for a work shed to be built on the lot in the rear of the workhouse, to be used as a workroom for the prisoners in bad weather. It would be large enough to be used for breaking rock and one end of it would contain additional stalls for the teams and room to store the wagons and street machinery. Commissioner Wicks was authorized to secure bids on the work, estimated to cost about \$1,000.

SHOULDER BROKEN

William Cravens Sustained a Bad Fall Tuesday.

William Cravens, one of the oldest men in the city, 86 years old last month, sustained a fall while going about the home of his two sons-in-law, Messrs. J. M. and W. A. Rickman, on Elm street, Tuesday and his shoulder was broken. The injury is a serious and very painful one for a man of his advanced age.

HESTER & HESTER.

R. O. Hester, formerly of this city, has taken his son Aubrey Hester into law partnership at Mayfield.

Federal Court Monday.

With a short and unimportant docket to be disposed of, the regular fall term of the United States District Court at Paducah will begin Monday morning, Nov. 20, at 10 o'clock, with Judge Walter Evans presiding. A. M. Henry and J. W. Riley, of this county, have been summoned as jurors.

Methodist Revival.

The revival at the Methodist church is still in progress. Large crowds are attending each service and much good is being accomplished. Preaching at 3 p. m. and 7 o'clock.

FEW CHANGES IN COUNT

Hughes Gains 1,000 In Minnesota—California Laughs at Rumors in Change.

SPLIT IN THE STATE

Only Question of Interest In Regard to The Count In Progress.

Sante Fe, N. M., Nov. 15.—President Wilson made a net gain of 40 votes over Charles E. Hughes in official returns from five New Mexico counties reported to the secretary of state today. The unofficial tabulations including the official count in five counties tonight shows 610 out of the 638 precincts in the state have been heard from. The count stands Hughes 29,324, Wilson 31,548. It is expected a week will pass before all returns have been received officially.

HUGHES GAINS IN MINNESOTA

St. Paul, Minn., Nov. 15.—The Hughes lead in Minnesota suffered many changes today but tonight stood at slightly more than 1,000. Returns came slowly into the capital today and there were several differences between them and unofficial returns previously published. There was a consistent gain for Hughes in the afternoon figures. The vote tonight after a complete recheck stood Wilson, 178,260; Hughes, 179,264. Hughes plurality 1,004. Added sheets from the county auditors are expected tomorrow at the state house and will be gone over.

NO CHANGE IN CALIFORNIA.

San Francisco, Nov. 15.—Whether the highest vote for a republican presidential elector in California was greater than the lowest vote for a democratic elector was about the only question of interest to California politicians tonight. If this should prove to be the case the state's delegation in the electoral college may be split. The republicans admittedly unearthed nothing in the course of the day to indicate for or against such a prospect. The changes in the count were insignificant.

MODERN WARFARE.

Austrian airmen bombed a building thronged with women and children in Weavova, Italy, and killed 60 of them.

THERMOMETER DOWN TO 18

Early Cold Wave Proves Severe One for This Section.

The thermometer registered 18 degrees yesterday morning and this section experienced its first real winter of the season. A light rain accompanied by sleet and hail Monday night resulted in icy streets and pavements Tuesday morning. Fair and continued cold for Thursday is the prediction of the weather bureau. Not much change in temperature is expected for several days.

RICKMAN-BARD.

Marriage license was issued yesterday to Mr. John L. Rickman to wed Miss Inez Russell Bard. The groom is 22 and a son of Mr. R. G. Rickman. The bride is 18 and a daughter of Mr. H. T. Bard. The wedding was scheduled to take place last night.

500 Conversions.

With over 500 conversions to the church, which he asserted was a pretty fair average for a "pleasure-mad town," Evangelist D. L. Coale concluded his three weeks' revival at the First Methodist church in Lexington Sunday night.

SAYS BLACKLIST SHORTEN WAR

England's Reply to U. S. Protest is Made Public—Pleads Military Necessity.

APPLIES TO BRITISH ONLY

Denies Rights of Neutral Traders Ruthlessly Cancelled.

Washington, Nov. 15.—The British reply to the latest American note protesting against the trade blacklist made public by the state department denies the rights of neutral traders under international law have been ruthlessly cancelled, denies the blacklist measures a municipal regulation plainly concerning only the British government and British citizens and contends that it is designed to shorten the war.

The note fails to meet the American demand that the names of American firms be stricken from the blacklist, but it attempts to convince the state department that the British position is just and founded on law. It leaves open the door for further negotiation, which is expected to follow.

AFTER THE PARADE.

Some of the old-timers still insist that the big Cleveland blowout in 1884 was bigger than this one.

The parade was more than a mile long. The tail of it was cut off by a train on 7th street while the head was passing the Baptist church.

Nobody seems to know how many autos were in the parade, as it was too big for one man to see it all.

Lucian Davis' make up as Uncle Sam made a big hit.

M. N. Smotherman as Teddy Roosevelt, teeth and all, rode a mule and played a star role.

Geo. Boren as President Wilson stood up in an auto, costumed to fit his part, and bowed to the cheering crowds.

W. L. Gore and many assistant marshals had their hands full keeping the line moving.

After the parade, although it was drizzling, 1,000 or more people went to Virginia Park, where short speeches were made by J. B. Allensworth, L. E. Foster, Jno. T. King, of Cadiz; Walter Knight and Vego Barnes.

Summers Cooper's burlesque band attracted as much attention as the excellent brass band from Russellville.

Bethel Woman's College had 40 girls in the big omnibus from the State Hospital.

A bunch of High School girls filled one of the big trucks and had as much fun as the boys.

Lafayette sent a big delegation in automobiles and on horseback. A majority of 40 gave them a right to feel good.

The weather clerk kindly held off the rain until 8 o'clock and the parade was over.

SERIOUS CHARGE

Young Man From Drakesboro Is Arrested and Gives Bond.

N. J. Wilburn, of Drakesboro, was arrested Tuesday on a warrant from Muhlenberg county charging him with stealing a mule. Yesterday the Planters Bank & Trust Co. received a letter from H. E. Thompson authorizing the bank to act as agent for him in making bond for Wilburn. The young man waived examination and was released on a bond of \$250. He will enter a plea of not guilty. He claims that his arrest was due to prejudice and that there is nothing in the charge.

BIG DRIVE ON WEST FRONT

This Time It Is The British Instead of the Democrats.

PRISONER TOLL IS 5,000

Austro-Germans Gain Successes Over Rumanians and Russians.

London, Nov. 15.—The British drive began early Monday morning amid fog and rain in the region of Ancre river in France has netted them another village—Beaucourt on the north bank of the Ancre. The capture of this village makes three that have fallen into British hands since the advance began, the other two being Beaumont-Hamel and St. Pierre Divion. There is no indication that the offensive has ceased at any point along the five mile front.

In the drive the British thus far have taken more than 5,000 German prisoners and, according to the latest report, more captives are being brought in. Aside from the gains in the Ancre region, the British also have made an advance to the east of Butte de Warlencourt about three miles southeast of the important town of Bapaume.

To the south of the Somme the Germans are busily engaged in shelling French positions in the region of Pressoire and on the sector of Biches-La-Maisonnette with the French vigorously replying. On the remainder of the front only bombardments occurred.

WIN IN TRANSYLVANIA.

With comparative quiet still reigning on the Russian and Austro-Italian fronts, the Rumanian and Macedonian theaters continue the local points of interest. The Austrians near Orsova and the junction of the Austro-Rumanian and Austro-Serbian frontiers have cleared the right bank of the Danube of Rumanians, a victory which probably means a lessening of the impediments the Rumanians have placed upon the navigation of the river in this region. Up in the north the Russians have been compelled to retire from the Gyergio mountains to the Rumanian frontier.

The situation in Dobrudja still remains to be clarified.

OPEN SEASON IS NOW ON

Fields Full of Hunters and Sport Expected to be Fine on Start.

The open season for hunting small game began yesterday and it will be lawful to shoot quail, rabbits and squirrels until Jan. 1, in Kentucky. Several changes have been made in the hunting laws this year, most noticeable of which is the bag limit of twelve birds per day for each hunter. Another change is the one made in the United States Federal laws governing the shooting of migratory birds, so that Kentucky hunters may shoot wild duck, geese and snipe at this season of the year.

The Federal laws formerly gave hunters in this state an open season for hunting these birds at a time when no geese or ducks were in the state. Ducks and geese may now be shot until January 15, but the open season on snipe closes December 15. Every hunter, unless he be hunting on his own land or the land of neighbors, must have a hunting license and must carry it with him when he goes in the field. Game wardens have been instructed to enforce the license law and will be hunting hunters who seek to evade this law. Licenses may be obtained by Kentucky hunters upon payment of \$1 each at the County Clerk's office. Game is reported quite plentiful in this section.

BOOSTER TRIP CALLED OFF

Owing To The Unsettled Condition of The Weather Yesterday.

NO MORE THIS SEASON

Good Results Still Being Felt From The Other Trips Taken.

A final conference yesterday afternoon resulted in the permanent abandonment of the Booster trip to Princeton and other towns set for today, and there will be no more of these trips this season.

The cold weather made it inadvisable to attempt the trip planned and as there is no likelihood of any suitable weather this fall for a period long enough to be advertised in advance, it was decided to go into winter quarters.

There is no doubt that much good was done by the three trips taken and good results are still being felt.

WILL CONTEST ELECTION RUMOR

Democrat May Raise Same Issue In Kirk Nomination Case.

Frankfort, Ky., Nov. 15.—Judge J. M. Roberson, of Pikeville, Democratic candidate, will contest the election of Judge Flem D. Sampson, of Barbourville, to the Court of Appeals from the Seventh district, it is reported here.

The question of the sufficiency of Judge Sampson's statement of primary campaign expenses filed with Secretary of State James P. Lewis was raised by Judge A. J. Kirk in contest proceedings over the Republican nomination. Kirk's petition was thrown out on demurrer and the ruling was sustained in the Court of Appeals by an evenly divided bench, the opinion merely stating that the Judges could not agree and the judgment stood affirmed. Some lawyers believe Roberson can raise the issue contesting the election. There were only six Judges sitting in the Kirk-Sampson case, Judge Hurt being absent on account of illness in his family.

GIVES BOND

Examining Trial of Ben Rudolph, Charged With Murder.

Ben Rudolph, col., who killed Vernon Ward, col., two weeks ago, was tried Tuesday and held over under a bond of \$1,000, which he gave with Prentice Mercer as surety.

LATE FALL.

Not until the night of Nov. 13 did the most beautiful autumn ever seen in Kentucky give place to wintry weather. Until Tuesday saws, nasturtiums, cosmos and other tender flowers were still blooming in many protected places. Some flowers more hardy have not yet been killed.

Hughes Quits.

Ottawa, Ont., Nov. 15.—Gen. Sir Sam Hughes has resigned as Canadian minister of militia and defense. His resignation was requested.

The break between Gen. Hughes and Premier Borden and other members of the Canadian government resulted from differences over questions of policy and details of administration.

THURSDAY, NOV. 15

The first "Texas Norther" hit the
soldiers on the border Sunday, giving
them a taste of the real hardships of
life in the open.

In spite of the landslide in Ohio, in
the Cincinnati District, Congressman
Nicholas Longworth, Republican, son-
in-law of Col. Theodore Roosevelt,
was re-elected.

Attorney General Thomas W.
Gregory has informed friends, it is
stated, that he will retire from the
Cabinet, for business reasons, it is
understood.

An indiscriminate massacre of nearly
100 women, children and Carranza
soldiers who were on a train near
Cuernavaca by Zapata followers is re-
ported by Mexico City newspapers.

In twelve states women vote for
president. Hughes carried two—Illi-
nois and Oregon. The president car-
ried the other ten—Wyoming, Colo-
rado, Utah, Idaho, Washington, Ari-
zona, Kansas, Nevada, Montana and
California.

The British caught the Germans
napping on the northern end of the
Western line Monday and by a sud-
den drive captured five miles of front
to the depth of one mile, taking be-
tween 3,000 and 4,000 prisoners.
Some very strong positions were
taken with slight resistance.

The Commercial Appeal estimates
the amount of cotton from the 1916
crop at 10,862,900 bales, exclusive of
linters. The crop has been harvested
at a rate never before approximated.
As picking and ginning have pro-
gressed the shortness of the yield has
become more and more pronounced
in those districts affected by heavy
rains of last summer, and the boll
weevil.

Professor Percival Lowell, founder
and director of the Lowell Observa-
tory at Flagstaff, Ariz., and an astron-
omer of international reputation, died
Monday from a stroke of apoplexy.
Dr. Lowell apparently was in good
health when he arrived in Arizona re-
cently from a lecture trip. For ten
years much of Dr. Lowell's effort had
been devoted to study of the planet
Mars. His home was in Boston, where
he was born March 13, 1855, but he
went west at certain seasons for stud-
ies at the observatory he established
in 1894. He was the author of many
works on astronomical subjects.

American Efficiency.

We hear so much about German ef-
ficiency that we are apt to forget Amer-
ican efficiency. Let it not be forgot-
ten that the first essential of ef-
ficiency is the conception and initiation
of practical and constructive ideas.
In this regard the United States has
led and still leads the world. Indeed,
not a few of the inventions which
have made warfare so "efficient" have
sprung from American minds, just as
inventions which have done most in
stimulating agricultural and manufac-
turing progress have come from this
side of the Atlantic. The Germans
have excelled in applying important
ideas and important inventions to the
various departments of economic ac-
tivity. The American bent is to ini-
tiate; it does not always excel
in the painstaking work which must
follow the launching of a great idea.
Yet there are scores of examples
ready to hand in this country of a
surpassing efficiency not only of con-
ception and initiation, but of system-
atic achievement as well.—Financial
America.

"GIBRALTAR OF THE BALTIC"

Powerful Fortress of Sveaborg, Guard-
ing the Gulf of Finland, Has Been
Frequently So Called.

After more than 18 months of naval
war upon the Baltic sea between the
fleets of Germany and Russia, the first
successful shot has yet to be fired
against the mighty fortress of Svea-
borg, which guards the neck of the
Gulf of Finland, and the water ap-
proaches to the Russian capital, says
a bulletin issued by the National Geo-
graphic society at Washington. Svea-
borg, best known as the "Gibraltar of
the Baltic," powerfully secures its
holders' control to all the wide basin
of the Gulf of Finland, thus giving
them a most important base for dis-
puting the control of the northern
inland sea. It was the acquisition of
this stronghold that constituted the
strongest impelling force in Musco-
vite politics toward the conquest of
Finland from the Swedes.

Across the neck of the gulf from
Sveaborg lies Reval, the seat of other
powerful shore defenses and of im-
portant Russian navy yards. These
two points block the way from the
Baltic against any naval power al-
most as securely as the forts Kliff
Bahr and Chansk Kalessi blocked the
English ships at the Dardanelles.
Reval is situated on a sharp bay at
the northeastern gulf shore of Est-
onia. Sveaborg fortress stands just
before Helsingfors, the capital of Fin-
land.

There are hundreds of small, thick-
ly wooded islands strewn over the
coastal waters around Helsingfors. It
is upon a group of seven of such is-
lands, which are larger than their
neighbors, that the almost impregna-
ble Sveaborg fortress is built. More-
over, small redoubts and batteries are
well concealed in several of the out-
lying islands which surround, like a
thinly-thung skirmish line, the fortress
near the coast.

Many a vain seaward attack has
shattered against Sveaborg's defenses
in hygone days, and in recent years
Russia has brought the strength of
the place up to Twentieth Century re-
quirements. It is said that more than
1,000 guns are mounted here and gen-
eral thousand soldiers are quartered
in the fortress even in times of peace.
During the Crimean war the allies at-
tacked this point violently and with-
out success. The story goes that Eng-
lish guns alone hurled more than a
thousand tons of shot and shell into
the fortress, almost without apparent
effect. It has fallen only once, and
then bribery is credited with victory
and not the force of arms. It sur-
rendered to the Russians without an
effort at defense, surrendering at the
same time that its garrison of 6,000
men laid down their arms and turned
over their formidable defenses, the
whole country of Finland.

Scared by Canary.

If after spending a night in the
street of many lights, you should be
awakened by something twitting on
your bedpost, you naturally would fear
the worst had happened, wouldn't you?
Someone on the tenth floor of the
Waldorf-Astoria kicked up an awful
noise during the early hours of the other
morning, says the New York Times.
He summoned clerks, bellhops, por-
ters and detectives to his aid. When
they reached his room they found the
sojourner cowered beneath quilts ex-
pecting any minute to have a pink ele-
phant or giraffe lick his face. The cause
of his fright was a canary. There it
was, perched on the rail of his bed,
fluttering and twitting and enjoying
its freedom. After the bell-
hop had captured it, the sojourner
called for a bracer and then swore
good behavior forever afterward. Dur-
ing a banquet at the hotel the other
night some of the members in mo-
ments of incongruous activity opened
a few of the cages and let the can-
aries flit out into the room. Since
then a canary has been appearing here
and there in the hotel at annoying in-
tervals and frightening sleepers.

Storage in Cato's Day.

Storage of crops against a favora-
ble time for selling appears to be no
new idea. We find a grain of sound
advice in Cato's writings 2,000 years
ago:
"Let your buildings be proportioned
to your estate. It is fitting that the
farm buildings should be well con-
structed, that you should have ample
of cellars and wine vats, and a good
supply of casks, so that you can wait
for high prices, something that will
redound to your honor, your profit
and your self-respect."

Evidently the problem of getting the
best prices was then, as now, a ques-
tion of providing storage facilities, ei-
ther on the individual farm or for a
group of farms, such as were included
in most Roman estates.—Country Gen-
tleman.

Oil Surplus Is Waste.

One of the causes of the lubricant
working out from the differential case
between the axles and tubes of the
automobile to the brakes and wheels
is due to using too large a supply of
oil or grease in the differential case.
It is not necessary to completely fill
the housing, only to a point where
the large gear will dip into the lubri-
cant. If the leakage continues, it felt
washers at the differential and wheel
ends of the axles.

As the wire employed for ignition
purposes is composed of a large num-
ber of fine strands of copper, it is im-
portant that they should be soldered
to a terminal or connection to avoid
the possibility of any of the strands
coming in contact with metal and
causing a short circuit.

Speechless For Thanks.

Mena, Ark.—"I find Cardui to be
all you represent," writes Mrs. H.
B. York, of this city. "I suffered
from womanly ailments, for nearly
two years, before I tried Cardui.
I have been so relieved since taking
it. I am of sufficient in a pulse.
It has done me a world of good, and
I recommend Cardui to all women."
Cardui is a 50-year-old, and the
demand is greater today than ever.
Cardui is the standard, tonic medi-
cine, for women of every age.
Would you like to be well and
strong? Then take Cardui. Its re-
cord shows that it will help you.
Begin today. Why wait?—A ver-
tisement.

Y. M. C. A. in Egypt.

Wherever a camp has been creat-
ed the Y. M. C. A. has pitched its tent
—at first an ordinary canvas one, but
later on one made of matting, says
the London Mail. Each tent is run
by a voluntary secretary—usually a
university man—who merely looks to
the association for his board and lodg-
ing, and who is responsible for the
organization of his particular area.
At each of these centers the men find
materials for letterwriting, papers to
read, games to play; they can get
good square meals at ridiculously low
prices, and they can use the tent ab-
solutely as their recreation room. Ev-
ery evening there is something doing
—concerts, organized by the secretary
or by private individuals, in which
the men take part; popular lectures,
competitions, boxing matches, etc.

En passant, it is interesting to note
that since the association started op-
erations among the troops in Egypt
alone it has distributed 3,500,000 sheets
of paper and as many envelopes, and
that at the present moment it requires
400,000 sets every month. One won-
ders how many of these letters would
have been written had it not been for
the intervention of the association.

Corrected His Age.

A well-known textile union official
who is on a recruiting committee tells
a story of a man aged forty-four
years, who was anxious to join the
army.

At the recruiting office he put his
foot in it by telling his true age, and
was rejected.

Going to the union man he com-
plained bitterly of the red tape ideas
that kept him out of the army.

"Well," said his adviser, "go back
and say you made a mistake, and that
your real age is thirty-six."

Away went the would-be soldier, and
putting on a bold front, told the re-
cruiter that he was only thirty-six
years of age.

"And why on earth did you say you
were forty-four?" asked the sergeant.

"Oh—you see—" stammered the
man, "I get a bit mixed. It's my moth-
er who is forty-four!"—London An-
swers.

Nothing More Lacking.

"Young man," said the elderly mil-
linaire, "my daughter has had every
luxury."

"Every luxury but one, perhaps, and
that one I am in a position to supply,
sir."

"What do you mean?"

"A husband."

One of Life's Necessities.

"Duhwite figures his expenso ac-
count rather closely."

"He didn't use to be that way."

"Oh, he has a car now. A man has
to be careful to keep a balance in the
bank large enough to cover his gaso-
line bills."

WHY RAIN INDUCES SLEEP

Moisture, It Is Asserted, Causes the
Blood to Circulate Far Slower
Than It Should.

Sleep is the result of poisoning. A
day spent in active work, whether of
the mind or the muscles, entails ex-
ertion. Exertion means the breaking
down of cells in various parts of the
body, and the waste from these broken-
down cells forms a sort of poison
which it is the duty of the blood to
carry away. When awake, we make
more poison than the blood can re-
move; when asleep, we make less;
consequently by alternately waking
and sleeping, the balance is evened
up.

When we wake up fresh, all these
toxic or poisonous products have been
removed; when we wake up "stale" it
is because we have not been able to
get rid of them. Working too hard or
too long, or sleeping too little or too
lightly, means that the poison is in-
creasing in quantity and our health
suffers. The desire to sleep late is
the body's signal that we need more
sleep in order to get rid of this body
waste.

In crisp, cold weather, in a bedroom
with the windows open, the blood cir-
culates rapidly. We breathe more
easily, the air enters the lungs more
rapidly, the purifying oxygen enters
the blood more freely and eight hours
of sleep will purge the system of all
the previous day's harm.

In rainy weather, or in a room with
the windows closed, the blood cir-
culates slowly and sluggishly. Breath-
ing moist air is harder than breath-
ing dry air, so that the body has to do
more work. This takes away some of
its capacity for removing the work
poison. In addition to this, when the
air is damp the oxygen is held fast
by the air and it does not go through
the membrane of the blood vessels
in the lungs so easily. The blood,
therefore, receives less of the purify-
ing oxygen and is not as well able to
rid the body of the poison.

In order to make up for the differ-
ence between dry and damp air a
greater number of hours of sleep are
needed. If, for example, on a rainy
night or in a closed room, the amount
of oxygen received is only one-half of
what it ought to be, it will be neces-
sary to sleep twelve hours in order
to secure as much good as eight hours
in crisp and dry air.

Sleeping late on rainy mornings
shows that nature is not satisfied with
the amount of recovery from work of
the day before. This is the cause of
a "bad taste in the mouth," of much
yawning, of aches in the joints and of
a bad temper at breakfast time. For
exactly the same reasons people in
mountainous countries sleep much
less on the average than those in the
lowlands.—Pittsburgh Post.

OUR GOLD SUPPLY ENORMOUS

Metal Stacked in Nation's Vaults Very Much Like Sacks of Grain in Granary

Our country has within its vaults as much gold as France and Russia combined—the two European nations that have striven the hardest to build mammoth hoards of the yellow metal. It has as much as Germany and Great Britain together, with all other belligerents, except France and Russia, thrown in.

But that is not all, says a writer in the Saturday Evening Post. Outside of Russia, which produces less than one-third as much gold as the United States, every European country is absolutely dependent upon the rest of the world for its gold supply, whereas this country yields up from its own mines one-fifth of the entire world's supply—or more than any part of the earth except South Africa.

Last year we stacked in more than \$400,000,000 of the yellow metal from the various nations that for years had been engaged in a fierce scramble for it. In our bank vaults, clearing houses, assay offices and subtreasuries gold is stacked like sacks in a granary.

The San Francisco mint alone received in seven months \$50,000,000 in gold from Australia, Japan and China. In four months more gold flowed into the country than in all of 1913, the previous banner year. It would take the latest force of men that ever worked in one first-class pick-out the gold in England's treasuries. There is more of it in the mint at Denver than was in the whole world 50 years ago. At one time the building held \$500,000,000 in gold alone.

If gold is in any sense a financial protection, this country has massive bulwarks against the possibility of shock. Its bunkers are full to overflowing.

Woman Past Help.

Chandler Oaks—In a letter from his place, Mrs. Ella Flowers says: "I hardly know how to thank you for the good that Cardui has done me. Before I tried Cardui, I thought I was past help, but after taking it I was relieved at once, and gained at least 10 pounds. I am still improving every day. Many women are completely worn out and discouraged on account of womanly weaknesses. Are you? Have you tried Cardui? I can't read a few lines to convince you that Cardui is just what you need. Try it today. It will cure your pains—Advertise."

Such Lives a Man's Lifetime. Under favorable conditions as exist in the vine barrens, lancherry culture is to be classed, as to the age of its first bearing, not with the slow-fruited apple orchard, but with the quick-fruited peach, with this important difference, however, that while the peach tree remains in vigorous fruiting condition for comparatively few years, the blueberry bush, with suitable pruning, bids fair to last a man's lifetime, and even longer.

Head-off That All-winter Cough

At the first sign of sore throat, tight chest or stuffed up head take a dose of Dr. Bell's Pine-Tar-Honey. The healing pine air, soothing honey and glycerine quickly relieve the congestion, loosen up the phlegm and break up your cold. Dr. Bell's Pine-Tar-Honey has all the benefits of the aroma from a pine forest, it is pleasant to take and antiseptic. The formula in the bottle tells why it relieves colds and coughs. At your Druggists 25c.—Advertisement

Exit the Reindeer.

A railroad is projected for Finnish Lapland in order to make available deposits of iron ore in that region, according to the Indianapolis News. The first part to be built, if the scheme materializes, will probably be from the village of Rovaniemi, connected by rail already with the port of Kemijoki on the Gulf of Bothnia, to Sukkavaara, 87 miles distant.

THE MARRIAGE QUESTION

"Has Tom ever hinted marriage to you?"
"Only once. Coming home from the theater the other night he laughed and said that anyhow two could ride in a taxicab as cheap as one."

MODERN FASHIONS.

The fashion editor of the Woman's Home Companion thus instructs her readers: "The latest news from Paris does sound a bit weird. In the most nonchalant way, Paris says: 'Strive to look like a larzel below the waist line; above introduce a delta; and crown the whole with a Gower pot.'"

WHO EATS 'EM?

"Why do you specialize on rutabagas?"
"Well, nobody wants to steal 'em. There's no temptation to eat 'em yourself. Nothing hurts 'em. It's a safe crop."

GOOD WAY.

"What can I say complimentary about this singer? His voice has a terribly heavy sound."
"Then talk about his liquid notes."

SUGGESTED FEAR.

She—"The new fashions are to me hooplike in style."
He—"I hope that doesn't mean they'll cost barrels of money."

SIC 'EM, FIDO.

Hazel—Mr. DeJones said I was a perfect picture the other evening.
Aimee—Yes; he asked me how long you had been painting.

HIS LIMITS.

He—"I wouldn't just sit on a stool and look pretty."
She—"Well, you could sit on a stool."

"Only 'Gets-It' for Me After This!"

It "Gets" Every Corn Every Time. Painless. Nothing More Simple.

"Till tell you what, I've quit using toe-eating knives for corns. I've quit making a package out of my toes with bandages and contraptions—quit digging with knives and scissors. Give me 'GETS-IT' every time!"

When You See These Pretty Girls in Your Dressing Window It's a Good Time To End Your Corns.

That's what they all say the very first time they use "GETS-IT". It's because "GETS-IT" is so simple and easy to use—put it on in a few seconds—because there is no work or corn-fooling to do, no pain that shoots up to your heart. It gets your corns off your mind. All the time it's working—and then, that little old corn peels right off, leaves the clean, corn-free skin underneath—and your corn is gone! No wonder millions prefer "GETS-IT". Try it tonight. "GETS-IT" is sold and recommended by druggists everywhere. 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Hopkinsville and recommended as the world's best corn remedy by L. L. Elgin.

PURELY PERSONAL

Mrs. J. E. Hooser and daughter, Miss Corina, left this week for Detroit where Mr. J. E. Hooser has been for several months.

Miss Nell Espie went to Adairville yesterday to sing at the Morrow-Benson wedding, a brilliant society event.

Dr. and Mrs. J. R. Paine, of Pembroke, have gone to Pass-a-Grille, Fla., to spend the winter, where they have a winter home.

Mrs. J. W. Marion left yesterday on a short visit to Florida.

Mrs. Fannie May Owsley will return tomorrow to her home at Mt. Vernon, Ill.

Mrs. Frank C. Guthrie and her sister, Miss Lizzie Hardin, of Nashville, are visiting Mrs. Geo. E. Gary. They are nieces of Mrs. Belle Hardin.

Wilson's Vote in the East.

It doesn't buy any meat, but Wilson's showing in the popular vote in the East was very gratifying.

New York, the home of Gov. Hughes, where the Hughes legend is still vital, where he has a real presidential strength, Wilson increased his vote over four years ago by 100,000. Hughes could only increase the combined Taft-Roosevelt vote by 18,500. Tammany's treachery cost Wilson 50,000 votes at the very least, though he probably would have lost the state with Tammany loyal.

In his own state of New Jersey, the president got 35,000 more votes than in 1912, while Hughes ran 30,000 votes behind the combined Taft-Roosevelt strength.

Wilson received 115,000 more votes in Pennsylvania, and Hughes 26,000 less than the two republican wings mustered in 1912.

In West Virginia Wilson added 26,000 votes to his total of four years ago, but an efficient republican state committee and local conditions aided Hughes. He got 6,000 more votes than Taft and Roosevelt, which proved enough to carry the state.

Throughout the country Wilson made a gain of 33 1/2 per cent. in his popular vote of four years ago. These figures show how impressive was the endorsement of the Wilson administration.—Evansville Courier.

Tuesday's Cold Wave.

Washington, Nov. 15.—A cold wave, with temperatures at various places lower than ever before recorded in November, overspread the region of the region west of the Mississippi river Tuesday and will move eastward to the Atlantic coast. Sheridan, Wyo., reported the lowest temperatures with 25 degrees below zero; Lander, Wyo., 24 degrees below zero, and Cheyenne, Wyo., Yellowstone National Park and Havre, Mont., 20 degrees below zero. The intense cold reaches southward into the interior of Texas.

Weather Bureau officials said the cold wave perhaps would diminish in intensity as it moved eastward.

CNDIDATES DEBATE IN N. D.

Aspirants for Presidential and Gov. Nominations Required to Accept Challenges.

Sioux Falls, S. Dak., Nov. 15.—Candidates for presidential nomination will henceforth have to appear in South Dakota to take part in joint debates or their names cannot appear on primary ballots in this state, if a primary law enacted last Tuesday under the initiative remains on the statutes until 1920.

Returns received at the capital tonight indicate that the so-called Richards primary laws was adopted by a safe majority.

The law divides each of the parties into "majority" and "minority" factions requiring that each faction offer a complete set of candidates in the biennial primaries. Candidates for nomination for president and governor must challenge one another to point debate. Failure to accept a challenge automatically strikes the name of the delinquent from the ballot. That is the third time the law has been approved by direct vote. It was adopted under the initiative in 1912 and a substitute was rejected in the 1914 election. In 1915 the legislature re-called it. Mr. Richards appeal ultimately reached the United States supreme court which upheld the state supreme court's approval of the action of the legislature.

Treat Children's Colds Externally

Don't dose delicate little stomachs with harmful internal medicines. Vick's "Vapo-Rub" Salve, applied externally, relieves by inhalation as a vapor and by absorption through the skin. Vick's can be used freely with perfect safety on the youngest member of the family. 25c, 50c, or \$1.00.

DR. GATLIFFE MODERATOR

Record Attendance of Kentucky Baptists in Louisville.

Dr. A. Gatcliffe, of Williamsburg, was re-elected Moderator of the General Association of Kentucky Baptists at the opening yesterday of the seventy-ninth annual meeting in Louisville.

State Sen. W. A. Frost, of Graves county, and the Rev. W. E. Hunter, of Somerset, were elected vice-moderators. Prof. John L. Hill, of Georgetown, was chosen secretary, and A. E. Wohlbold, of Louisville, assistant secretary.

Attendance at the opening session broke all previous records for the State meeting of the Baptists. The number of enrolled delegates and registered visitors was three times greater than at any previous meeting. All of the delegates are the guests of Louisville Baptists, the visitors being cared for in the homes of local members of the church.

John Brown's Son.

Of the fourteen sons of John Brown, by his two marriages, Salmon, eldest son of the second marriage, is the only one now living. Oct. 2, 1916, he was 80 years old. He lived for many years, in Portland, Ore.

During the strike in Kansas (1855-57), Salmon was almost constantly at his father's side. John Brown often said that in any enterprise requiring great courage and daring the two men he could most depend on were his son, Salmon, and his son-in-law, Henry Thompson, husband of his daughter, Ruth. Just after the fight at Black Jack, June, 1856, in which he took part, Salmon was wounded, and still bears the mark of the bullet in his arm.

It was necessary for one son to remain on the Adirondack farm to harvest the crops of 1857, and that lot fell to Salmon. He never approved of the Harper's Ferry foray. He always said it would prove a deathtrap to his father and those who should follow into Virginia. His brother, Watson had been the Adirondack farmer before, but now the three sons, Owen, Watson and Oliver, started for the Kennedy farm in 1859, the two last leaving girl wives behind them. As they departed from North Elba, Salmon said to them prophetically, "Boys, you'll never come back," and

two of them never did. To-day he is practically a "shut-in." In his youthful days six feet tall and powerful of build, like his father, he is now bent and broken and barely able to walk with the aid of two canes. His hair, once fiery red, has turned to a deeper tint rusted over with gray and his beard is white and flowing. More than even his brother Owen, he has the look of his father. Mentally he is keen and alert, living over the scenes of the adventurous past, which he loves to recount to interested listeners. He was one of the few men whose courage saved Kansas to freedom and made the swift extinction of negro slavery possible.

"Microbe of Love."

Don't forget that the "Microbe of Love," will be presented at the Tabernacle tomorrow (Friday) night. This big home talent play will be given, the curtain going up at 8 o'clock sharp. The play abounds in local hits, excellent specialties and catchy songs. Tickets on sale at Anderson-Fowler's drug store.

She Cut Him Down.

Robards, Ky., Nov. 16.—The almost lifeless body of Brndy Hunter was found by his wife dangling at the end of a rope at his home, near here, late Sunday afternoon. Mrs. Hunter had been out of the house for a few minutes and when she returned the form of her husband swinging from a rope caught her vision.

Papers Double Up.

Carlisle, Ky., Nov. 15.—The consolidation of the Nicholas Advocate with Carlisle Mercury, the two newspapers of this city, has been consummated and the final arrangements of the deal are to be perfected this week. W. R. Fisher, of the Mercury, will be managing editor, and J. H. Tilton, of the Advocate, will be the news editor of the publication, which will be known as the Carlisle Mercury.

Hyphenate Takes It Hard.

Helena, Mont., Nov. 15.—The Rev. Frances von Clafenbrek of Tillamook, Ore., has sent his naturalization papers and a letter resigning his citizenship to the district court clerk here. The letter in part said that "to see a man returned to power after an administration and policy such as we have seen during the past four years is too much for me."

Trustees to Meet.

A meeting of the Board of Trustees of Bethel Woman's College has been called for Friday night at 7 o'clock, at the offices of the Forbes Manufacturing Company. Two recently appointed new members are Geo. E. Gary and Dr. Austin Bell.

858 Dead Ducks.

Members of the Blue Wing Hunting Club, after a ten days' stay at Reelfoot Lake, returned to Clarksville Monday and report one of the finest hunts in the history of the club. They killed 858 ducks.

EFFICACY OF ELECTION PRAYER

Frankfort Woman and Butler
County Man Firm in Their
Convictions.

Frankfort, Ky., Nov. 15.—The efficacy of prayer was revealed in at least two instances in connection with the national election. One good Democratic woman in Frankfort said when she heard the news that Hughes was ahead election night, she knelt down and said: "Lord, I can't do anything; it's up to you to save the nation." About 3 o'clock she awoke, and she said: "I heard a neighbor's rooster crowing and I said to myself, 'my prayer is answered,' and turned over and went back to sleep."

Down in the edge of Butler county, where Attorney General Logan was speaking just before the election, an old man went up to him after the speech and said:

"Judge, speakin's all right, and we ought to work for Wilson, but I believe in prayer. Every night I get down on my knees and pray to Gawd to help us beat hell out of 'em."

Fined For Yawning in Church.

Lexington, Ky., Nov. 15.—Henry Hipshire paid \$20 in County Court for his lack of constraint while Pastor Bottom was working up to his peroration in the course of a sermon at the old Union church, Loradale, two weeks ago. As the congregation hung spellbound on the words of the minister, the jury was told, Hipshire wearily abandoned himself to an abysmal yawn. It wasn't a yawn in the narrow definition, the jury was told. It was more a cross between a sigh, a groan and a yawn. There was such a tinge of distaste and aggressiveness in it, it was said, that Hipshire was both ejected and arrested. "Disturbing public worship" was the charge filed in the County Court on which the jury returned a verdict of guilty.

Don't Let Your Car Radiator Freeze Put in Anti Freeze Mixture

A gallon can will do the work. Sold by

Died in Indiana.

Nicholas Tresch, aged 39, a son of William Tresch, of this county, died at Mt. Vernon, Ind., Monday, of tuberculosis. The body was brought here for interment yesterday. It arrived Tuesday night and was taken to the home of George Almy. Services were conducted by Rev. Barney Butler. Mr. Tresch leaves a wife and one child.

Back to Business

President Wilson, back at the White House, took up the threads of administrative business Monday, acquainting himself with the latest details of the submarine and Mexican issues. No sweeping changes in policy are anticipated in Washington circles. It is suggested that troops may soon be withdrawn from Mexico.

Threw out Votes.

Boise, Idaho, Nov. 15.—The commissioners today threw out as fraudulent 921 votes in two precincts in Bonneville county, giving the entire republican ticket the lead in that county. Investigation is also under way in Ada, Power, Canyon and other counties. Wilson carried the state by over 13,000.

Killed over Lawsuit.

New Castle, Ky., Nov. 13.—Joseph Batts, a farmer of the Port Royal section was shot and killed in front of the court house this morning by Taylor Breeden, also of Port Royal. The men had a lawsuit and Breeden lost. When they met this morning each was armed. Breeden opened fire and shot Batts twice. Batts fired once, but missed.

Farm Changes Hands.

U. C. V. REUNION RESIDENCE MAY 28-JUNE 2 WAS BURNED

Plan Elaborate Program of
Entertainment During the
27th Annual Meeting.

The executive committee in charge of arrangements for the next reunion of United Confederate Veterans to be held in Washington City has designated May, 28 to June 2, 1917, as the dates for that event. H. F. Cary, chairman of the finance committee, announced that at a recent meeting of railroad officials a one cent fare per mile each way had been agreed upon as a patriotic and sentimental concession to the Confederate Veterans, and that in making this arrangement the railroads were actually putting into effect a rate less than cost. The effect of this, he explained, would be to bring a record-breaking gathering, comparable only to the inaugural crowds and possibly surpassing them. The committee will raise \$40,000 to entertain the veterans while they are in Washington and there will be an elaborate program of entertainment, with side trips to Baltimore, to the Gettysburg battlefield, to New York City and other places.

Microbe of Love

Of course you will be at the Tabernacle Friday night, can't afford to miss it.

Lookout for the two belated sisters, Misses Allie Davis and R. E. Coleman, of Oak Grove. They are a side splitting scream.

Tickets on sale at Anderson-Fowler's. Only 25 cents.

Remember the cause.—To improve and refurnish the auditorium of our public library, where all the ladies' clubs meet and where our medical fraternity propose to hold their monthly sessions.

Pack the house and give Hopkinsville an up-to-date club room.

Many Will Seek

The adoption of the commission form of government in Daviess county and the city of Owensboro at the recent election has caused considerable stir among the local politicians and the holders, and already dozens have made known their intention of running for the position of commissioner for the city, and also many have announced their intention of running for commissioner in the county.

Uncle Sam's Gold.

There is now \$500,000,000 worth of gold in the sub-treasury at New York, a veritable mountain of gold. The greatest pile of gold that has ever been gotten together at one place since human history began; the most fabulous amount of the metal that has ever been accumulated under one roof; a representation of wealth so great it staggers the imagination to contemplate it!

Cottage Sold.

Mr. W. B. Wash has purchased the cottage on South Main street, formerly owned by John P. Prowse, Jr., the price being \$4,750. The sale was made through the Hopkinsville Realty Co.

Allen-Gary.

The wedding of Miss Hesse Gary, daughter of Mr. and Mrs. John C. Gary, to Mr. Henry P. Allen, of Cincinnati, Ohio, will take place at South Union Baptist church at 4 o'clock p. m., Monday, Nov. 27th.

HOG CHOLERA

County Agent McKenzie
Warns All To Burn
Carcasses.

There are some reports of hog cholera in Christian county and County Agent Jas. A. McKenzie warns the public that all such cases should be reported to him and all carcasses are required by law to be either buried or burned. Hog cholera is a disease that can now be controlled by strict and vigilant treatment of cases as fast as they appear. The law imposes heavy penalties upon those who help to spread the disease.

Real Estate Deals.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one reliable cure for that ancient disease, Catarrh, which has been known to cure in all its stages, and that is Dr. J. C. Hall's Catarrh Cure. It is the only reliable cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

NEW USE FOR "PIGTAILS"

China Exporting Human Hair to This Country to Compete With That of the Equine.

As a commercial competitor of the hair from a horse's tail, the discarded pigtails of Chinamen have reached the United States courts and the pigtail reigns.

At any rate, the horse tail is to enjoy no monopoly at the expense of the amputated one when it comes to the cottonseed-oil industry.

What happened was this: To extract the oil from cottonseeds the latter are crushed and then placed between thick mats. A pressure of several thousand pounds is applied to the mats and the oil is forced out.

Formerly these mats were made of camel's hair. Then Robert E. Werk introduced hair from horse's tails and manes and wrought a decided improvement, only to see F. T. Parker make mats from Chinese pigtails and do the trick of oil pressing quite as effectively. Result: a suit by Werk against Parker for infringing a patent.

The legal aspect of this case does not interest me, but the fact that China is sending human hair to this country to compete with equine hair does interest me greatly.—Philadelphia Ledger.

Constipation Dulls Your Brain

That dull, listless, oppressed feeling is due to impurities in your system, sluggish liver, clogged intestines. Dr. King's New Life Pills give prompt relief. A mild, easy, non-gripping bowel movement will tone up your system and help to clear your muddy, pimply complexion. Get a bottle of Dr. King's New Life Pills today at your Druggist, 25c. A dose tonight will make you cheerful at breakfast.—Advertisement.

Fighting the Chestnut Blight.

The chestnut blight has already done damage estimated as close to \$50,000,000. The disease attacks both American and European species, but does little damage to those from Japan and China. Plant breeders by crossing Japanese chestnut and native chinquapin have produced resistant trees. Some of the Chinese chestnuts are said to grow 100 feet high in their home forests.

MUSKRAT PELTS IN DEMAND

At St. Louis Fur Auction a Million Were Sold in One Day Recently.

A million muskrat skins were sold at the rate of \$1,000 worth a minute at the fourth day's sale of furs at the Fursten Fur exchange, says the St. Louis Globe-Democrat.

There were 600 lots, with an average number of 2,000 pelts to a lot, and at a price averaging 50 cents each.

H. D. Fertel of New York city bought a group of 100 spring black pelts, the finest to be offered, at \$1.30 each. This was the highest price paid for any group. The pelts will be manufactured into women's cloaks, Fertel said. This particular group brought the high price because of their being solid black and because they were trapped in the spring.

Albert M. Ahern, vice president of the Fursten company, explained that the skin of the muskrat, in contrast to that of other animals, is at its best in the spring. It is a water animal, he said, and with the coming of warm weather the winter coat is shed, and a glossy, soft fur takes its place. The black skin is the rarest.

The animals that are trapped bring the best price because the hide remains unharmed. If the animal is shot, and in such a manner that his pelt must be patched, it usually brings a price of 20 cents. Indians in the northern wilds of Canada sometimes spear it in such a place as not to break the surface of the marketable skin. The color of most muskrats is a luxuriant brown. They are much in demand because their pelts are the nearest approach to a sealskin that can be obtained. The skin, when taken off the animal is about 12x14 inches in size.

VERY MUCH IN THAT LINE.

"I want a drama of human interest."

"I've got the very thing here. I've dramatized a spring cleaning."

HITTING BACK.

"I'm only telling you this for your own good."

"I understand. And incidentally for your personal satisfaction."

GOING THE WRONG WAY.

"You should do as I do, old man—always pay as you go."

"I'd like to, but it's impossible. I'm always going broke."

THE RESULT.

"This new play has its scenes laid in the Arctic regions."

"Then what can it expect but a frost?"

CITY TAXES!

ACHING TEETH

RELIEVED AT HOME

Sloan's Liniment Robs Tooth-ache of Its Terrors. Pain Vanishes in a Few Minutes.

No need to pace the floor all night with the agony of a throbbing tooth. Sloan's Liniment will quickly relieve the pain and give you rest.

A single application and the pain usually disappears. Sloan's Liniment gets right to the root of the trouble. Like a warming balm it relieves congestion, and in a few minutes toothache is reduced.

To soothe the throb of a tooth that pains with neuralgia, apply Sloan's Liniment externally. Aching muscles, rheumatism, gout, bruises, sprains, lumbago, chilblains, sprains and stiff neck can also be most effectively treated with Sloan's Liniment. Clearer than musky plasters or poultices.

Sloan's Liniment at all drug stores in 25c., 50c. and \$1.00 bottles.

Sloan's Liniment
KILLS PAIN

OF COURSE NOT.

"He was born in a log cabin, and now he's a millionaire."

"Well, you can't expect every man who is born in a log cabin to become president."

CORRECTED.

"Is that distinguished foreigner traveling incognito?"

"No; he's traveling in a Pullman."

Sloan's Liniment for Neuralgia Aches.

The dull throb of neuralgia is quickly relieved by Sloan's Liniment, the universal remedy for pain. Easy to apply; it quickly penetrates without rubbing and soothes the sore muscles. Cleaner and more promptly effective than musky plasters or ointment; does not stain the skin or clog the pores. For stiff muscles, chronic rheumatism, gout, lumbago, sprain and strains it gives quick relief. Sloan's Liniment relieves the pain and inflammation in insect bites, bruises, burns and other minor injuries to children. Get a bottle to day at your Druggist, 25c.—Advertisement

A Question of Dignity.

Towards the close of the Irish revolt a band of about two hundred rebels decided to surrender, but considered it beneath their dignity to give themselves up to the two policemen who, at that moment, were the only representatives of law and order near. Their leader accordingly telephoned to the nearest barracks and asked that a more imposing force should be sent to take the rebels in charge. Being only too willing to oblige, the officer sent a considerable detachment, and the insurgents were thus able to march to their place of detention with unruffled dignity between the ranks of their armed guards.

REQUIRES NERVES OF STEEL

Necessary Quality for the Man Who Takes Motion Pictures of the War.

When it comes to peril and hair-raising experiences only the man actually on the firing line has anything on the war motion picture operator, particularly when he is engaged, as many of those who represent England now are, on reconnoitering work. At first these operators were only used as an experiment, but they have since proved of great practical value.

The motion picture man who volunteers for this work accomplishes one of the most difficult and daring tasks possible that can be imagined. He must be a master of his profession, have nerves of steel and be willing to take great risks. More often than not he is obliged to fly at a low altitude, otherwise his pictures would be valueless.

Many men who have gone out on these perilous expeditions have never returned. As a precaution against the films falling into the hands of the enemy, the operators are provided with a special apparatus which, should they be compelled to descend in the enemy's lines, enables them instantly to destroy their records.

These war films show the experienced observer a great deal of what is going on behind the enemy's lines. The enemy trenches are clearly visible, smoke from bursting shells indicates the accuracy of the French artillery fire, and tiny dots moving across the horizon are recognized as troops, convoys or guns. It is even possible to discern men digging trenches or placing big guns in position. The cinema men have often brought back excellent pictures taken from waterplanes showing the movements of ships and the track of periscopes.

IN THE KITCHEN

"Anyhow," remarked the beef-steak, "I guess I am beginning well."

"How's that?" asked the temptot.

"Why, I'm half done."

BIRDS TOO MANY FOR HIM.

Permission has been granted by the town authorities to W. W. Myers to shoot starlings that gather about his home in such numbers as to be a nuisance. The permit is accompanied by one from the state fish and game commission, in whose list of protected birds the starling is included.

For some reason the starlings chose Mr. Myers' property as headquarters, and so bold have they become that they removed shingles from the roof of the house in locating their nests.—Mottclair (N. J.), dispatch to Philadelphia Record.

Bad Colds From Little Sneezes Grow.

Many colds that hang on all winter start with a sneeze, a snuffle, a sore throat, a tight chest. You know the symptoms of colds, and you know prompt treatment will break them up. Dr. King's New Discovery, with its soothing antiseptic balsams, has been breaking up colds and healing coughs of young and old for 47 years. Dr. King's New Discovery loosens the phlegm, clears the head, soothes the irritated membrane and makes breathing easier. At your Druggist, 50c.—Advertisement.

Lodgings for Horses.

The East End is no adept at stowing away anywhere or other in his house horses as well as chickens. It is a common sight in the East End at the close of day to see a horse wending his way through an ordinary street door as if he were a human lodger. Yet the houses have no back yards worth mentioning and no outhouses.—London Chronicle.

A TRIUMVIRATE OF REAL EVILS

Factors Which Affect Well Being of Farmers.

BAD BOOK WORST ROBBER.

Weather, Books and Roads Contribute Largely to the Influences of Rural Life—All Are Factors in Favor of the Mail Order House and Against Local Merchant.

[Copyrighted, 1914, by Thomas J. Sullivan.] Weather, books and roads contribute largely to the influences of rural life. Bad weather and bad roads mean—books.

And books they say are the light-houses erected in the great sea of time. They are musters who instruct us without rods or ferries, without words or anger, without bread or money. If you approach them they do not hide. If you seek them they do not scold. If you are ignorant they do not laugh.

But the worst robber in all the world is a bad book. It has long been the devil's policy to keep the masses of mankind in ignorance; but, finding that they will read, he is doing all in his power to poison their books. Now, let's see what our rural friend is reading. "Oh, rara avis! Oh, book without parallel in the history of commercial destruction! 'The book' is a huge pictorial, colorized retail catalogue. The catalogues of mail order houses are a kind of leaky boat on the waters of temptation; some of the temptation will get in anyhow.

Mud a Great Help Too. What is more natural with gloom, darkness, rain and mud surrounding a farmer or suburban dweller, when to venture forth means either a sacrifice of self or faithful horses, than for him to turn to the alluring catalogue for both pasture and a means of procuring the necessities of life? Thus it can be seen that the third and best factor in favor of the catalogue houses is mud.

Man is measured by his deeds, and it seems strange that after mastering the art of reading the stars, discovering the course of the planets, controlling the iron monster, the lightning, the sea and the wind, man shows his inability to conquer the one great problem which is proving such a drawback to the best expression of his life.

Miss Katie McDaniel No. 1 Odd Fellows Building. Phone No. 210. Fire, Life, Tornado—Accident and Health Liability. Workmen's Compensation.

in rural districts as far as social and commercial conditions are concerned. Poor roads seem to be his heritage, his master.

A country's stability is measured by its agricultural importance, as the well being of a nation is like a tree—agriculture is its root; industry and commerce are its branches and its life. If the root be injured the leaves fall, the branches break away and the tree dies. Community pride begins where agriculture leaves off, and both are equal and inseparable in their importance to a healthy, happy, successful existence for man.

Blue Grass Roads Are Best.

It is a pleasure to drive through the blue grass district of Kentucky, where they have what they call macadamized turnpikes. These roads are the equal of any paved city street and of course are passable at all seasons of the year. They cost approximately \$2,000 per mile. The highways in Kentucky are from thirty to sixty feet in width. It is estimated that were the highways of Illinois regulated to fifty feet \$25,000,000 could be added to the wealth of the farmers of the state. That alone would build more than 8,000 miles of road.

Spend \$150,000,000.

This country today has about 2,250,000 miles of public highway, on which it is estimated that the people of the country are spending \$150,000,000 annually. Statistics say we also spend \$2,000,000,000 for alcohol, \$9,000,000,000 for tobacco, and it is said that the Indies spend \$305,000,000 yearly for candy. If all this money could be appropriated for road building we could have a turnpike to the moon.

The principal cause of the Roman empire's downfall was its neglect of agriculture—the exodus of its men and women from the farm to the city, the life there to be spent in extravagant and riotous living. Go to any of our cities today and view the extravagant dress and general trend of life for pleasure and you will feel that the old Roman times are being repeated.

It would seem that the remedy lies in building good roads, narrow if advisable, but firm and hard, and have them all lead to your trading center and to the doors of your local merchants. Then on gloomy, rainy days you can do your marketing, and then "back to the farm" without sacrifice to self or injury to beast.

Nothing tends to make a man a good citizen so much as co-operation with his fellows. No man can live for himself alone. Selfishness leads nowhere but to destruction, strife, bad feeling and disorder. It is one of the meanest of all the vices.

The farmer and the town consumer who patronize the retail catalogue houses also assist materially in the destruction of the local market and trading center. This practice of sending local money to out of town merchants is a dangerous habit.

PISGAH NATIONAL FOREST

Is Now Made a Federal Game Preserve By President Woodrow Wilson.

Washington, November 15.—President Wilson has issued a proclamation by which the Pisgah National Forest, in western North Carolina, is made a Federal game preserve. This is the first Federal game preserve of its kind to be created east of the Mississippi River.

The Pisgah National Forest consists largely of the George W. Vanderbilt estate, part of which has been purchased by the Government. The land is located near Asheville and Biltmore, N. C. Owing to the protection against hunting which has been afforded the tract for a number of years, the game has not been killed out, as is the case in most places in the southern mountains. Deer, wild turkey and pheasants are said to be plentiful.

After it was known that the tract would be acquired by the Government, many of the local citizens urged that the protection to the game should be continued. The North Carolina Legislature passed an act whereby the State consented to the enactment by Congress of laws for the protection of game, birds and fish on any lands purchased by the Government under the Weeks Law in the western part of the State.

As a game preserve, no hunting will be allowed on the Forest and as the deer and other game increase on the area, it is expected that the overflow will drift out of the Forest and gradually restock adjacent lands. A movement is now on foot to place a herd of elk and one of buffalo in the preserve this winter.

Regulations governing the camping and fishing privileges have been drawn up in co-operation with local citizens and sporting clubs, and will be issued by the Secretary of Agriculture. It is understood that regulated fishing will be allowed, but the number of permits issued the first season will be purely experimental, since the capacity of the streams is not known.

Death Due to Paralysis.

D. M. Whayne, of McLean county, died Tuesday at the Western State Hospital of general paralysis of the insane, aged 67 years. He was received here about five months ago. The body was shipped to Calhoun yesterday.

Dowell-Foulks.

Miss Margaret Foulks, of Nashville, a niece of Mr. E. L. Foulks, of this city, was married in Nashville, Nov. 6th, to Mr. Jas. R. Dowell.

RED CROSS SEAL SALE

Pennants to be Awarded to Winners--Over 300,000,000 Seals Distributed.

With the opening of the Red Cross Seal Sale, every state and thousands of cities, towns and villages are entering a competition to see who will sell the most seals per capita for the prevention of tuberculosis in their communities. Over 300,000,000 seals have been distributed for the sale.

The cities, towns and villages have been divided into 10 classes according to population ranging from 600 to 1,000,000 and over. Pennants will be awarded by the American Red Cross and The National Association for the Study and Prevention of Tuberculosis in each of the classes. Similar pennants will be awarded to states selling the most seals per inhabitant, the states being divided into three classes according to population.

Last year Hershey, Pa., sold more seals per capita than any other city or town in the United States, reaching a total of 29.04. In Rhode Island, 2.29 seals per capita were purchased by the people of the state, a record sale among the states.

In addition to the pennants, a special honor certificate will be awarded to any community which sells five or more seals per inhabitant. It is hoped that this rivalry among cities and states will stimulate the sale of Christmas seals to 100,000,000. This will mean \$100,000,000 for the fight against tuberculosis in the United States.

MR. BURNETT VERY ILL.

Mrs. Ritchie Burnett was advised Tuesday of the critical illness of her son, John P. Burnett, at Houston, Texas. Later she was wired to the effect that his condition had improved and to await further intelligence before starting to his bedside.

LADIES!

This is the Store For Everything You Wear.

Redfern Corsets,
Warner Corsets,
Muslin Underwear,
Knit Underwear,
Gordon Hose,
Gloves,
Coat Suits,
Dresses,
Rain Coats,
Kimonas.

Everything Ready Made
